RH1T SERIES

RELY ON RUUD.™

Advanced Comfort

Customize the condition of your home's air. The Ruud RH1T Air Handler adjusts airflow in the home to help control humidity. Airflow can be set for specific needs, so your home feels just the way you want it.

Reduce Energy Bills

Reducing your monthly energy bills is easier than ever with the Ruud RH1T Air Handler. The unit is designed to exceed minimum efficiency standards, which will help lower your monthly utility bill.

Reliability and Durability

Solid construction ensures quiet operation and provides quality assurance backed by a 10-year conditional parts warranty.

We Thought of Everything... And Then Some.

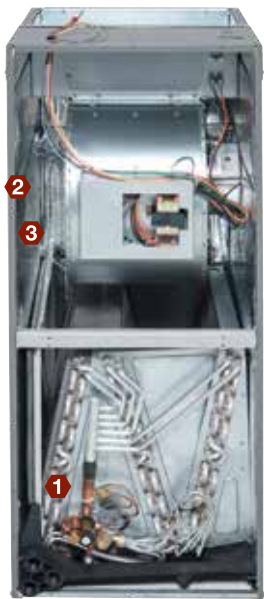

The Ruud Air Handlers were developed using our 360°+1 design philosophy, which means every detail of the product is meticulously evaluated from every angle. We consider the work that goes into installing and servicing our products, as well as how we can deliver the very best homeowner experience. And then we take it a step further. That's 360°+1. And that's why you can count on your Ruud Air Handler to bring you and your family years of comfort.

EXPERIENCE THE BENEFITS OF GUARANTEED COMFORT

At Ruud, we understand the needs of everyday living, which is why the Ruud RH1T Air Handler was designed to provide homeowners like you efficient operation with improved energy savings and greater comfort.

Energy Savings The Ruud RH1T Series Air Handler is designed for high performance, exceeding the standard efficiency requirements and, in many cases, enhancing the efficiency rating of your outdoor air conditioning unit.

Humidity Control A new Ruud Air Handler will help manage humidity levels in the home, improving your comfort and helping you save money on energy bills.

Efficient Heating & Cooling Ruud Air Handlers also feature a flexible design that allows them to meet the needs of a variety of systems. Your Contractor will recommend a unit that will best meet your home's airflow needs. The **1** factory-installed indoor aluminum cooling coil is the key component for your air handler. The coil is essential to humidity control and improved system performance, and the high-quality standards used in manufacturing result in fewer maintenance calls.

THE REWARDS OF RUUD QUALITY & DURABILITY

Quiet Operation The Ruud RH1T Series Air Handler is designed with a **2** sturdy steel cabinet with **3** one inch of foil-faced insulation, offering excellent thermal and sound insulation.

Adaptable Design The 4-way convertible design of Ruud Air Handlers allows the unit to fit in with the design of your home.

Optional Electric Heat When a heat pump is paired with the unit, Ruud Air Handlers can also provide efficient heating for your home. An optional electric heater kit can be added to keep you warm all winter long.

Simple Service Ruud Air Handlers have been engineered to provide your technician easy access to all internal components, helping any service time stay short and simple.

Ruud Quality The RH1T Air Handler features a new lanced fin design for maximum performance and increased efficiency. A new high-grade condensate drain pan keeps the unit operating smoothly, especially when the weather heats up. And the corrosion-resistant aluminum endplates keep your unit looking as good as it runs.
